NOTES TO FINANCIAL STATEMENTS

December 31, 2005

NOTE 1- ORGANIZATION AND NATURE OF BUSINESS

Organization

J.P.P. Euro-Securities, Inc. (the "Company") was incorporated in the State of Delaware on August 4, 1986. The Company is a wholly-owned subsidiary of Societe de Bourse Pinatton (the "Parent"), a French corporation engaged in the securities and investment advisory business in France.

On December 11, 1986, the Company was granted registration as a broker dealer pursuant to Section 15(b) of the Securities Exchange Act of 1934 by the Securities and Exchange Commission ("SEC"), and on February 18, 1987, the Company was approved for membership in the National Association of Securities Dealers ("NASD").

Nature of business

The Company's business is that of an introducing broker. The Company's transactions are cleared on a fully disclosed basis by a clearing broker/dealer.

The Company earns fee income from its Parent for providing the Parent with certain administrative support service in connection with customers of the Parent.

On April 1, 1995 the Company, through several correspondent and cooperation agreements with other European securities brokers, began to place orders for its customers in the various European securities markets. The agreements provide that the Company earns a service fee and is reimbursed for expenses on a monthly basis.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue recognition

The Company recognizes commission income on the settlement date of its security transactions. The recognition of commission income on the trade date would not have a material effect on the accompanying financial statements.

J.P.P. EURO-SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

December 31, 2005

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Depreciation and Amortization

The cost of furniture and equipment is depreciated over the estimated useful lives of the related assets of 5 to 7 years. The cost of leasehold improvements is amortized over the length of the related 10 year lease. Depreciation is computed on a straight line basis for financial reporting purposes and on an accelerated basis for income tax purposes. Leasehold improvements, for income tax purposes, are amortized in accordance with Internal Revenue Service regulations.

Income Taxes

The Company applies the policies of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes", which requires use of the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are recognized for the tax consequences of temporary differences by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities.

Cash and cash equivalents

All short-term investments with an original maturity of three months or less are considered to be cash equivalents.

Concentration of Credit risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Additionally, cash balances are held principally at one financial institution and exceed the \$100,000 insurable limit. The Company believes it mitigates its risk by investing in or through major financial institutions. Recoverability is dependent upon the performance of the institution.

Fair Value of Financial Instruments

The carrying value of financial instruments including international receivable and accounts payable and accrued expenses, approximates their fair value due to the relatively short-term nature of these instruments.

J.P.P. EURO-SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income

Effective January 1, 1999 the Company adopted Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" ("SFAS No. 130"). SFAS No. 130 requires an entity to report comprehensive income and its components and increases financial reporting disclosures. This standard has no impact on the Company's financial position, cash flows or results of operations since the Company's comprehensive income is the same as its reported net income for 2005.

Recent Accounting Pronouncements

The Company does not expect the adoption of recent accounting pronouncements to have any material impact on its financial condition or results of operations

NOTE 3- RELATED PARTY TRANSACTIONS

Substantially all of the Company's revenue is derived from the Parent based upon terms which are mutually agreed upon between the parties. The Company is dependent on the Parent for continued financial support.

This rule requires that the ratio of aggregate indebtedness to net capital may not exceed 15 to 1, and equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2005, the Company's net capital was \$1,662,378 which was \$1,657,378 in excess of its required net capital of \$5,000. The Company's aggregate indebtedness to net capital ratio was 0.0186 to 1.

Therefore, all of the customers' money balances and long and short security positions are carried on the books of the clearing broker. Under certain conditions as defined in the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the securities transactions introduced by the Company.

NOTE 9- SUBORDINATED REVOLVING CREDIT AGREEMENTS

The Company has entered into Subordinated Revolving Credit Agreements with its various correspondents for \$200,000 each for a total of \$400,000 at December 31, 2005. In the event the Company needs additional capital, upon receiving NASD approval that the proceeds of the loan would be considered part of the Company's capital, it can draw down on the revolving credit. The Company did not use any of the revolving credit available to it during 2005.

NOTE 10- EMPLOYEE BENEFIT PLAN

Effective January 1, 2000, the Company adopted the J.P.P. Euro-Securities, Inc. 401(k) Plan under section 401(k) of the Internal Revenue Code of 1986, as amended. Under the Plan, all employees eligible to participate may elect to contribute a percentage of their salary up to the maximum allowed under the Code. All full time employees are eligible for the Plan. NOTES TO FINANCIAL STATEMENTS

December 31, 2005

NOTE 11- GUARANTEES

FASB Interpretation No. 45 (FIN 45), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, requires the Company to disclose information about its obligations under certain guarantee arrangements. FIN 45 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or non occurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. FIN 45 also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement as well as indirect guarantees of the indebtedness of others.

Indemnifications

In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The maximum potential amount of future payments that the Company could be required to make under the indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. The Company may also provide standard indemnifications to some counterparties to protect them in the event additional taxes are owed or payments are withheld, due either to a change in or adverse application of certain tax laws. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the consolidated financial statements for these indemnifications.
